

Wyatt Fitz

# Masters of Financial Economics (MSFE)

Majors at Montana State

Finance and Economics

Always enjoyed math and numbers

# Career Aspirations

Pretty open to many things right now

Top 3

1. Portfolio management
2. Financial Advisor
3. Financial Analyst

# Reason for taking it

No specific reason, part of MSFE curriculum

Never took a class on python as undergrad and interested in learning it

# Book that I am reading

Intelligent Investor

- Always on lists of best finance books
- Long read, taking me a long time and just taking it bits and pieces at a time

# Something I have learned from book

Still got a ways to go to finish but some things so far:

Place more value on long term investing rather than short term

Patience

Value investing

# Idea that has influenced my life

Emotional detachment from money

Increased my willingness to spend and enjoy more things in life

One less thing that I stress about in my life

Still need to be smart with it, just no longer try to have my life center around money

# Q and A

Questions?
